

JOB DESCRIPTION

Title: Operations and Maintenance Technician

Wyoming Gas Company is a local natural gas distribution company (gas utility). Wyoming Gas currently serves approximately 7,000 customers in the state of Wyoming primarily in Hot Springs, Washakie, and Big Horn County. Wyoming Gas Company offers medical and dental insurance, profit sharing, and 401(k) savings plans. Wyoming Gas Company is an Equal Opportunity Employer.

An Operations and Maintenance Technician for Wyoming Gas Company will be responsible for the following duties:

- Service Calls
- Emergency Response
 - Leak Calls
 - Hit Lines or Meters
 - Other Abnormal Operating Conditions
- Line Locates
- Patrols, Surveys
- Cathodic Protection
- Atmospheric Corrosion Protection
- Maintain field facilities
- Meter Reading and Meter Maintenance
- Maintenance/Construction of gas pipe facilities
- Variety of other operations and maintenance related tasks as requested.

Qualified candidates should have a H.S. Diploma or GED. Mechanical, plumbing, construction, or maintenance skills are preferred. Additional consideration may be given to applicants with backhoe, excavation, or welding experience, candidates who have a CDL, or candidates with management or supervision experience.

Please return the attached Employment Application AND the PHMSA Release of Information Form to the Wyoming Gas Company office or email to humanresources@wyogas.com with the subject line of Wyoming Gas Operations Technician.
