

Natural Gas News

Wyoming Gas would like to congratulate the Class of 2026. Your hard work and dedication will be the foundation of our future.

Wyoming Gas provides a scholarship program for High School graduates. Please see the following 2026 Wyoming Gas Scholarship Recipients.

*Hot Springs County High School:
Maile McCumber & Cole Keller*

Wyoming Gas congratulates you both on your future endeavors.

Wyoming Gas would like to wish you a very Father's Day!

Affordable Natural Gas Energizes the Commercial Market

Small businesses and the jobs and families they support are America's economic engine. They depend on the affordable natural gas delivered by natural gas utilities.

Natural Gas Fuels Businesses

More than 5.6 million businesses and buildings in the United States use natural gas. It's used every day in schools, hospitals, police and fire stations, offices, restaurants, grocery stores, retail outlets and public spaces. They are the core to the U.S. energy economy and fundamental to our daily lives.

How Do Businesses Use Natural Gas?

- In the United States, commercial primary energy use was 4,868 trillion Btu (British Thermal Unit) in 2022. While total energy use in the U.S. was 31,088 trillion Btu. This includes 3,633 trillion Btu of the 4,868 trillion Btu which was provided by natural gas.
- Natural gas consumption in the U.S. commercial sector exceeded 3.6 trillion cubic ft (Tcf) in 2022.
- Prices for commercial customers are impacted by similar factors as residential customers with the commodity cost of natural gas contributing the biggest impact to customer prices.
- The share of commercial buildings that use natural gas has remained relatively constant across the entire commercial building fleet, suggesting that commercial natural gas growth closely mirrors the rate of growth across the entire commercial building market.

Appliance and Building Codes and Standards

Codes and standards play a critical role in helping ensure that natural gas application in the commercial sector is installed and operated safely and reliably. Each state, and often local governments within each state, determine which codes and standards apply to their commercial occupancies. Building efficiency standards affect how a structure is designed and built, and its lifetime energy usage. While there are various state and commercial building construction efficiency regulations in use around the country, ASHRAE standard 90.1 *Energy Standard for Buildings Except Low-Rise Residential Buildings*, is the most widely adopted minimum.

Looking Forward

- The U.S. Energy Information Administration (EIA) projects commercial floor space to continue a long-term increase while total energy consumption declines. However, purchased natural gas for commercial consumption is projected to remain constant through 2050.
- In the near term, there are clear opportunities to expand natural gas services to commercial customers.
 - Leverage natural gas as a tool for economic growth.
 - Promote new technologies to improve energy services, lower costs, and reduce emissions.
 - Replace heating oil with natural gas, especially in the northeastern U.S.
 - Leverage existing efficiency programs to comply with broader economic or environmental policy goals.

Fun Facts About Natural Gas!

Natural gas vehicles (NGVs) run on compressed natural gas (CNG) or liquefied natural gas (LNG), both primarily composed of methane. They are used in a wide range of passenger and commercial vehicles, from light-duty cars to heavy-duty buses and trucks.

RECIPE: Fish Tacos

Ingredients:

- 1 pound tilapia fillets, cut into 1-inch pieces
- ¼ teaspoon salt
- 1/8 teaspoon pepper
- 2 teaspoons of preferred cooking oil
- 8 corn tortillas (warmed)
- Optional topping: guacamole, chopped peppers- tomatoes- onions, lemon

Directions:

1. Sprinkle tilapia with salt and pepper. In a large nonstick skillet, heat oil over medium- high heat. Add tilapia.
2. Cook until fish just begins to flake easily with a fork 3-4 minutes on each side.
3. Serve in tortillas with desired toppings.

COMMUNITY EVENTS

Worland

June 11th Tris Munsick and The Innocents Live at Worland's 8th Street Block Party Free starts at 5:30pm
Opening act Levi Klemm. Food trucks and drinks available.
For more info contact (307) 347-3226.

June 15th-19th Steam Camp Space at Washakie Museum
8am-noon To register call (307) 347-4102 or visit
washakiemuseum.org

June 23rd Trinkle Brass Works Presents -Celebrate America at the Washakie Museum and Cultural Center at 7pm A Free concert to honor America.

July 4th Ten Sleep Fourth of July Parade starts at 9:30am
For more info contact (307) 347-3226

July 21st Worland Relay Reunion 5-9pm at the fair.

Support the American Cancer Society/ RFL 20th anniversary of the first Relayforlife held at the fairgrounds. For more info call/text (307) 431-5876.

Thermopolis

June 19th The 33rd Annual Hot Spot Car Rally Cruise-In and Poker Run 4pm-7pm meet at the Kiwanis Shelter

June 20th The 33rd Hot Spot Car Rally at the Hot Springs State Park & Rusty Old Truck Market 10am-3pm
Registration 8am-noon. Voting closes at 1pm. Trophies awarded at 3pm. For more info call (307) 921-8264 or (307) 921-8450

Basin

June 20th Basin City Arts Center Father's Day Breakfast 8-9:30am Serving biscuits & sausage gravy \$6 per person or \$25 immediate family. Dads are free!

Reminder: All information was gathered online through local city hall and chamber of commerce websites and is subject to change. Please contact the appropriate office to confirm details. This section is for local, non-partisan, non-religious, non-profit messages. Preference given to nonprofits. Submit by the 10th to customerservice@wyo.com for inclusion in next month's edition. Thank you!
